

# Healix Hospital

## Lab Test Report

---

### Patient Information

Patient Name: Peter Smith

Patient ID: 122221

Test Name: X-ray

### Test Result

Handling failed messages

In the Message Attempts section, select the event whose Status is labeled with Failed.

Scroll down to the Webhook Attempts section.

Toggle the arrow next to the Status column.

Review the error. Solutions vary by error type. For more information, refer to the guide on debugging your webhooks.
